

Replacement Village Hall Noticeboard

The current condition of the noticeboard renders a large proportion as unusable as per the below photographs

The Clerk has been unable to display the draft minutes on the Board given the lack of usable space and the need to display the Agenda and Summons within the 'dry area' ahead of Council's meeting. The current noticeboard is clearly not fit for purpose.

Quotes for a like-for-like replacement board have been sought, as below

[Extra Large Aluminium Notice Board | Raising Door | Earth-Anchors](#)

£1,081 with the relevant additions

[price list issue 15.cdr \(parishnoticeboards.co.uk\)](#)

£1,380 minimum

[A-Max Range 18 x A4 Lockable Aluminium External Noticeboard \(greenbarnes.co.uk\)](#)

£1,317 minimum

A quote has also been obtained from Hunter Garden Services, extracted as follows:

Upon request, I am forwarding an estimate for works to the Trefriw community noticeboard, located outside the village hall. The work involves removing the existing board and breaking out the posts, then fitting new as supplied by you and removing all debris. It is requested that the posts are set in closer to the stone wall.

I estimate the cost of this work, including labour and materials at **£320.00**

Shaun Hamilton-Hunter, Hunter Garden Services

Given Council's legal obligation to provide information on matters relating to local government in addition to being able to display a physical notice of a meeting in at least one conspicuous place within the parish, a recommendation is made that a replacement noticeboard is obtained and installed at the very earliest opportunity.
