

Proposal for the purchase of a pavement sign to advertise events at the village hall

The current donated aluminium A frame is not robust enough to leave at the end of the village hall drive to advertise events.

The following options are weighted down by water and are less vulnerable to wind.

The suggestion is to purchase one of the following options and have half of the board printed with “Trefriw Community Council” or “Trefriw Village Hall” leaving the other half clear to attach a poster for the specific event being advertised.

The Ecoflex system seems to be available in a variety of sizes from several outlets

ECOFLEXLITE FLEX SIGN

SKU - ECOFLEXLITE

Your Eco-Conscious & Budget Friendly Pavement Sign Solution

- Double-Sided Visibility, Capture attention from both directions for maximum exposure.
- 410mm x 763mm display size for an eye-catching presence.
- Sturdy PVC Base Provides exceptional stability even in windy conditions.
- Sustainable Materials, Crafted from fully recyclable components, reducing environmental footprint.
- Effortless Assembly and Maintenance, Get your sign up and running with ease, and keep it looking great with minimal effort.
- Battle-Tested against 70mph Winds, Rest easy knowing your sign can stand up to the elements.
- Vibrant UV-Printed Graphics, Utilizes UV inks for a waterproof and UV-resistant finish that lasts.
